set value when create payment return.

Direct Return pacs.008 -> pacs.004

```
PaymentBizDelegate.createPaymentReturnFromExistingPayment()  line: 793
    -- PaymentUtils#convertInwardRemittanceToOutwardReturn()  line: 1103
```

1.1. InternalSettlementMethod: get from 008 additional_date key "internalSettlementDetails"

```
+ a.inwardSettlement
  keep unchanged

+ b.OutwardSettlement      remove old value, set new value:
  + bank code = a.inwardSettlement bank code
  + settlement Date = current date
  + Nostro/Vostro Flag= opposite of inwardSettlement
```

Completed remittance Return pacs.004 -> pacs.004

Similar with when create out pacs.008 from iw pacs.008, copy fields from iw pacs.008 additional_data

```
PaymentBizDelegate.createPaymentReturnFromExistingPayment()  line: 814
    -- PaymentUtils#convertInwardRemittanceToOutwardReturn()  line: 1103
```

1.1. set ow 004 Value day: get from iw 004 additional_date key: "computedValueDay"

```
outPayment.setValueDay(MapUtils.getObject(iwPayment.getAdditionalData,
"computedValueDay"))
```

1.2. set ow 004 settlementMethod: get from 004 additional_date key: "stpOutwardSettlementMethod"

```
outPayment.setSettlementMethod(MapUtils.getObject(iwPayment.getAdditionalData,
"stpOutwardSettlementMethod" ))
```

1.3. copy to ow 004 internalSettlementDetails in addition_data from 004 additional_date key "internalSettlementDetails"

```
InternalSettlementDetails internal =
MapUtils.getObject(iwPayment.getAdditionalData, "stpOutwardSettlementMethod") ;
outPayment.addAdditionalData("internalSettlementDetails", internal);
```

1.4. set ow 004 charges, get from 004 additional_date key: "chargeInfo"

```
-- PaymentUtils#convertInwardRemittanceToOutwardReturn()  line: 1029
outPayment.addCharge(MapUtils.getObject(iwPayment.getAdditionalData,
"chargeInfo"))
```

1.5. set ow 004 Charge Bearer: get from 004 additional_date key: "computedChargeBearer"

```
outPayment.setChargeBearer(MapUtils.getObject(iwPayment.getAdditionalData,
"computedChargeBearer"))
```

1.6. copy to ow 004 exchangeDetail in addition_data: get from 004 additional_date key: "computedExchangeDetail"

```
-- PaymentUtils#convertInwardRemittanceToOutwardReturn()  line: 1010
out.putAdditionalData(PaymentAdditionalDataKey.EXCHANGE_DETAIL,
                MapUtils.getObject(in.getAdditionalData(),
PaymentAdditionalDataKey.COMPUTED_EXCHANGE_DETAIL));
out.putAdditionalData(PaymentAdditionalDataKey.COMPUTED_EXCHANGE_DETAIL, null);
```

1.7. copy to ow ow 004 originalChargeBearer in addition_data: get from 004 additional_date key: "originalChargeBearer "

```
-- PaymentUtils#convertInwardRemittanceToOutwardReturn()  line: 1005
out.putAdditionalData(PaymentAdditionalDataKey.ORIGINAL_CHARGE_BEARER,
in.getChargeBearer());
```
